

Innovative Technology for Computer Professionals

Computer

Volume 39, 2006

SUBJECT INDEX

A

- Agent technologies**
Security Models: Refocusing on the Human Factor [Column], D. Trcek, Nov., pp. 103-104.
- Ajax techniques**
Simplifying Ajax-Style Web Development [Column], K. Smith, May, pp. 98-101.
- Application integration**
Web Services Interoperability Specifications, H.R.M. Nezhad et al., May, pp. 24-32.
- Application platforms**
Will Software Developers Ride Ruby on Rails to Success? [News], D. Geer, Feb., pp. 18-20.
- Application server software**
Mathematical Server Sizing [Column], D. Brodine, July, pp. 91-93.
- Archibald, R.C.**
George Stibitz's Values and R.C. Archibald's Slide Rule [Column], D.A. Grier, Jan., pp. 11-13.
- Assistive technologies**
Assistive Embedded Technologies [Column], P. Narasimhan, July, pp. 85-87.
- Authentication and key exchange protocols**
Key-Exchange Authentication Using Shared Secrets, M. Badra and I. Hajjeh, Mar., pp. 58-66.
- Autonomic computing**
Self-Managing Software [Column], M.G. Hinckley and R. Sterritt, Feb., pp. 107-109.
- Autonomic computing**
Toward Open-World Software: Issues and Challenges, L. Baresi et al., Oct., pp. 36-43.
- Autonomous vehicles**
Memory-Based In Situ Learning for Unmanned Vehicles, P. McDowell et al., Dec., pp. 62-66.
- Autonomous vehicles**
On the Importance of Being Contextual, P. Lombardi et al., Dec., pp. 57-61.
- Autonomous vehicles**
Real-Time Perception and Planning Architecture for Autonomous Ground Vehicles, B. Touchton et al., Dec., pp. 40-47.
- Autonomous vehicles**
Testing Driver Skill for High-Speed Autonomous Vehicles, C. Urmon et al., Dec., pp. 48-51.
- Autonomous vehicles**
To Drive Is Human, I. Miller et al., Dec., pp. 52-56.
- Autonomous vehicles**
Unmanned Vehicles Come of Age: The DARPA Grand Challenge [Guest Editors' Introduction], G. Seetharaman et al., Dec., pp. 26-29.
- Autonomous vehicles**
A Vision for Supporting Autonomous Navigation in Urban Environments, V.P. Srinivas, Dec., pp. 68-77.
- Autonomous vehicles**
VisLab and the Evolution of Vision-Based UGVs, M. Bertozzi et al., Dec., pp. 31-38.
- Awards**
Computer Society Honors Oklahoma Teen at Intel Science Fair [CS Connection], B. Ward, July, pp. 67-70.
- Awards**
Computer Society Honors Technical Achievements [CS Connection], B. Ward, Oct., pp. 94-96.
- Awards**
NC State Team Wins \$20,000 CSIDC Prize [Report to Members], B. Ward, Aug., pp. 13-16.
- Awards**
Taulbee Survey Indicates Steady Interest in Computing [CS Connection], B. Ward, Aug., pp. 77-79.
- Awards**
Weyuker and Barbacci Honored with Society Awards [CS Connection], B. Ward, June, pp. 73-74.

B

- Biometric authentication**
Biometric Authentication [Column], A.C. Weaver, Feb., pp. 96-97.
- Business services networks**
Service-Oriented Computing [Column], M. Bichler and K.-J. Lin, Mar., pp. 99-101.

C

- CSIDC**
NC State Team Wins \$20,000 CSIDC Prize [Report to Members], B. Ward, Aug., pp. 13-16.
- CSIDC**
Organizers Announce Field for CSIDC 2006 [CS Connection], B. Ward, Mar., pp. 67-70.
- CellML**
Multiscale Modeling: Physiome Project Standards, Tools, and Databases, P.J. Hunter et al., Nov., pp. 48-54.
- Chaotic lasers**
Using Chaotic Lasers to Encrypt Data [News], L.D. Paulson, Dec., pp. 23-25.
- Clinical software engineering**
Coping with Defective Software in Medical Devices, S.R. Rakitin, Apr., pp. 40-45.
- Clinical software engineering**
Ensuring Patient Safety in Wireless Medical Device Networks, V. Gehlot and E.B. Sloane, Apr., pp. 54-60.
- Clinical software engineering**
A Formal Methods Approach to Medical Device Review, R. Jetley et al., Apr., pp. 61-67.
- Clinical software engineering**
High-Confidence Medical Device Software and Systems, I. Lee et al., Apr., pp. 33-38.
- IGSTK**
IGSTK: An Open Source Software Toolkit for Image-Guided Surgery, K. Gary et al., Apr., pp. 46-53.
- Software Engineering**
Software Engineering for Future Healthcare and Clinical Systems [Guest Editor's Introduction], R.A. Schrenker, Apr., pp. 26-32.
- Cognitive radios**
Cognitive Radios Address Spectrum Allocation [News], L.D. Paulson, May, p. 22.
- Communication technologies**
Fault Evaluation for Security-Critical Communications Devices, A. Rae et al., May, pp. 61-68.
- Communication technologies**
Is Time Ripe for Fabric on a Chip? [Column], I. Elhanany and K. Busch, Sept., pp. 112-113.
- Computational photography**
Computational Cameras: Redefining the Image, S.K. Nayar, Aug., pp. 30-38.
- Computational photography**
Computational Photography—The Next Big Step [Guest Editor's Introduction], O. Bimber, Aug., pp. 28-29.
- Computational photography**
Light Fields and Computational Imaging, M. Levoy, Aug., pp. 46-55.
- Computational photography**
The Moment Camera, M.F. Cohen and R. Szeliski, Aug., pp. 40-45.
- Computational photography**
Virtual Cinematography: Relighting through Computation, P. Debevec, Aug., pp. 57-65.
- Computer architectures**
Good Ideas, through the Looking Glass, N. Wirth, Jan., pp. 28-39.
- Computer intelligence**
Computer Intelligence and Formalization [Column], K.A. Olsen, Sept., pp. 116, 114-115.
- Computers and education**
Building a Game Development Program, L. Argent et al., June, pp. 52-60.
- Computers and education**
Educating the Next Generation of Game Developers [Guest Editor's Introduction], M. Zyda, June, pp. 30-34.
- Computers and education**
Evolving the Artist-Technologist, I. Horswill and M. Novak, June, pp. 62-69.
- Computers and education**
Game Design Education: Integrating Computation and Culture, J. Murray et al., June, pp. 43-51.
- Computers and education**
Games with a Purpose [Column], L. von Ahn, June, pp. 92-94.
- Computers and education**
Play-Centric Games Education, T. Fullerton, June, pp. 36-42.
- Computers and education**
What Have We Learned about Teaching Programming? D. Gries, Oct., pp. 81-82.
- Computers and society**
Across the Great Divide [Column], D.A. Grier, July, pp. 8-10.
- Computers and society**
The Benefits of Being Different [Column], D.A. Grier, Nov., pp. 6-8.
- Computers and society**
The Captured Imagination [Column], D.A. Grier, June, pp. 7-9.

- The Empty Box [Column], D.A. Grier, Sept., pp. 9-11.
 George Stibitz's Values and R.C. Archibald's Slide Rule [Column], D.A. Grier, Jan., pp. 11-13.
 The Innovation Curve [Column], D.A. Grier, Feb., pp. 8-10.
 In Our Time [Column], D.A. Grier, Mar., pp. 9-11.
 The Language of Bad Love [Column], D.A. Grier, Oct., pp. 7-9.
 The Print of the Hand [Column], D.A. Grier, Aug., pp. 8-10.
 Songs of Comfort and Joy [Column], D.A. Grier, Dec., pp. 11-13.
 A Winter of Hope and a Spring of Despair [Column], D.A. Grier, May, pp. 8-10.
- Computing profession**
- The Applied Mathematics and Computer Science Schism [Column], J. Kowalik, Mar., pp. 104, 102-103.
 Computer Intelligence and Formalization [Column], K.A. Olsen, Sept., pp. 116, 114-115.
 Concerning Interruptions [Column], S. Jenkins, Nov., pp. 116, 114-115.
 The Data Doughnut and the Software Hole [Column], N. Holmes, June, pp. 100, 98-99.
 Debunking the Nerd Stereotype with Pair Programming [Series], L. Williams, May, pp. 83-85.
 The Farmer, the Fairies, and the Computers [Column], N. Holmes, Feb., pp. 112, 110-111.
 Gender HCI: What About the Software? [Series], L. Beckwith et al., Nov., pp. 97-101.
 In Praise of Professional Precision [Column], N. Holmes, Apr., pp. 100, 98-99.
 Making a Case for BPC [Series], J.E. Gilbert, Mar., pp. 83-86.
 Making Software Agents User-Friendly [Column], Q.H. Mahmoud and L. Yu, July, pp. 96, 94-95.
 Our Profession Needs a Reminder [Column], V. Milutinovic, May, pp. 104, 102-103.
 Quasireform of English Spelling [Column], N. Holmes, Aug., pp. 104, 102-103.
 Standards: What Are They Good For? [Column], S. Santini, Dec., pp. 140, 139.
 The Technology of Stashing Data [Column], N. Holmes, Oct., pp. 120, 118-119.
 The Unspoken Revolution in Software Engineering [Column], B. Meyer, Jan., pp. 124, 121-123.
- Concept-based user interfaces**
- Developing Concept-Based User Interfaces for Scientific Computing, G. Chin Jr. et al., Sept., pp. 26-34.
- Controllable optical system**
- Computational Cameras: Redefining the Image, S.K. Nayar, Aug., pp. 30-38.
- Cross-platform development**
- Cross-Platform Development: Software that Lasts, J. Bishop and N. Horspool, Oct., pp. 26-35.

D

- DARPA Grand Challenge**
- Real-Time Perception and Planning Architecture for Autonomous Ground Vehicles, B. Touchton et al., Dec., pp. 40-47.
 Testing Driver Skill for High-Speed Autonomous Vehicles, C. Urmson et al., Dec., pp. 48-51.
 To Drive Is Human, I. Miller et al., Dec., pp. 52-56.
 Unmanned Vehicles Come of Age: The DARPA Grand Challenge [Guest Editors' Introduction], G. Seetharaman et al., Dec., pp. 26-29.
 A Vision for Supporting Autonomous Navigation in Urban Environments, V.P. Srinivas, Dec., pp. 68-77.
 VisLab and the Evolution of Vision-Based UGVs, M. Bertozzi et al., Dec., pp. 31-38.
- DRM-enabled video**
- Google Becomes an Entertainment Company [Column], M. Macedonia, Feb., pp. 101-103.
- Data storage**
- IBM Stores Data in a Single Molecule [News], L.D. Paulson, Oct., pp. 19-21.
 Synchronization Options for Data Warehouse Designs, I.C. Italiano and J.E. Ferreira, Mar., pp. 53-57.
 The Technology of Stashing Data [Column], N. Holmes, Oct., pp. 120, 118-119.
- Data-centric computation**
- Petascale Computational Systems [Column], G. Bell et al., Jan., pp. 110-112.
- Debugging**
- The Device Software Engineer's Best Friend [Column], M. Lindahl, May, pp. 95-97.

- Design patterns**
- The Problem with Threads, E.A. Lee, May, pp. 33-42.
Digital media curricula
- Building a Game Development Program, L. Argent et al., June, pp. 52-60.
 Educating the Next Generation of Game Developers [Guest Editor's Introduction], M. Zyda, June, pp. 30-34.
 Evolving the Artist-Technologist, I. Horswill and M. Novak, June, pp. 62-69.
 Game Design Education: Integrating Computation and Culture, J. Murray et al., June, pp. 43-51.
 Play-Centric Games Education, T. Fullerton, June, pp. 36-42.
- Digital photography**
- Eyes on the World [Column], M. Naaman, Oct., pp. 108-111.
- Display technology**
- It's the End of the Tube as We Know It [Column], M. Macedonia, June, pp. 83-85.
- Dynamic voltage scaling**
- Achieving Scalability in Real-Time Systems, G. Buttazzo, May, pp. 54-59.

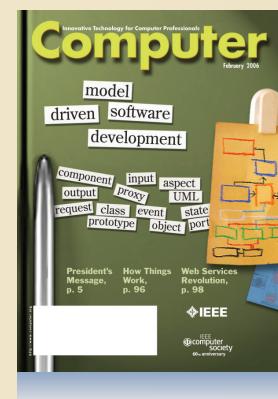

E

- E-government services**
- Securing E-Government Services [Column], J.-W. Kim et al., Nov., pp. 111-112.
- E-health**
- From Molecule to Man: Decision Support in Individualized E-Health, P.M.A. Sloot et al., Nov., pp. 40-46.
- E-mail**
- Collaborative Spam Filtering Using E-Mail Networks, J.S. Kong et al., Aug., pp. 67-73.
 Pay-to-Play E-Mail Plan Sparks Controversy [News], L.D. Paulson, Apr., p. 18.
- EIC's message**
- Celebrating the Past, Looking to the Future, D.L. Carver, Jan., pp. 8-10.
- Education**
- The Applied Mathematics and Computer Science Schism [Column], J. Kowalik, Mar., pp. 104, 102-103.
 Testable, Reusable Units of Cognition, B. Meyer, Apr., pp. 20-24.
- Elastic task model**
- Achieving Scalability in Real-Time Systems, G. Buttazzo, May, pp. 54-59.

- Elections**
- IEEE Computer Society Election [Report to Members], Sept., pp. 73-80.
 IEEE President-Elect Candidates Respond to Questions on Governance Issues [CS Connection], Sept., pp. 81-86.
 Kasturi Voted 2007 Computer Society President-Elect [Report to Members], B. Ward, Dec., pp. 81-82.
- Embedded computing**
- Assistive Embedded Technologies [Column], P. Narasimhan, July, pp. 85-87.
 A Half-Million Strong at Least [Column], W. Wolf, Sept., pp. 109-110.
 Processors and FPGAs Quo Vadis? [Column], Y. Tanurhan, Nov., pp. 108-110.

- Embedded systems**
- Achieving Scalability in Real-Time Systems, G. Buttazzo, May, pp. 54-59.
- Emergency navigation**
- The Device Software Engineer's Best Friend [Column], M. Lindahl, May, pp. 95-97.
 Reliability Concerns in Embedded System Designs [Column], V. Narayanan and Y. Xie, Jan., pp. 118-120.
 What's in a Name [Column], J.M. Paul, Mar., pp. 87-89.
- Wireless Sensor Networks for Emergency Navigation, Y.-C. Tseng et al., July, pp. 55-62.**

- Energy-adaptive displays**
- Energy-Aware User Interfaces and Energy-Adaptive Displays, P. Ranganathan et al., Mar., pp. 31-38.
- Enterprise system development**
- The Data Doughnut and the Software Hole [Column], N. Holmes, June, pp. 100, 98-99.
 Model-Driven Engineering [Guest Editor's Introduction], D.C. Schmidt, Feb., pp. 25-31.

**Entertainment computing**

- Detecting Ads in Video Streams Using Acoustic and Visual Cues [Column], M. Covell et al., Dec., pp. 135-137.
- Games and Technology: Developing Synergy [Column], N. Gershon et al., Dec., pp. 129-130.
- Games with a Purpose [Column], L. von Ahn, June, pp. 92-94.
- Google Becomes an Entertainment Company [Column], M. Macedonia, Feb., pp. 101-103.
- It's the End of the Tube as We Know It [Column], M. Macedonia, June, pp. 83-85.
- Moving Beyond HD [Column], M. Macedonia, Oct., pp. 115-117.
- Songs of Comfort and Joy [Column], D.A. Grier, Dec., pp. 11-13.
- User Interfaces for Mobile Content [Column], S.R. Subramanya and B.K. Yi, Apr., pp. 85-87.
- Why Graphics Power Is Revolutionizing Physics [Column], M. Macedonia, Aug., pp. 91-92.

F**FLOSS projects**

- Assessing the Health of Open Source Communities [Column], K. Crowston and J. Howison, May, pp. 89-91.

Fabric on a chip

- Is Time Ripe for Fabric on a Chip? [Column], I. Elhanany and K. Busch, Sept., pp. 112-113.

FieldML

- Multiscale Modeling: Physiome Project Standards, Tools, and Databases, P.J. Hunter et al., Nov., pp. 48-54.

File sharing

- The Technology Underlying Podcasts [Column], L.J. Patterson, Oct., pp. 103-105.

Flash memory

- Improved Flash Memory Grows in Popularity [News], G. Lawton, Jan., pp. 16-18.

- New Flash Player Rises in the Web-Video Market [News], J. Emigh, Feb., pp. 14-16.

- The Technology of Stashing Data [Column], N. Holmes, Oct., pp. 120, 118-119.

Formal methods

- A Formal Methods Approach to Medical Device Review, R. Jetley et al., Apr., pp. 61-67.

- Ten Commandments of Formal Methods ... Ten Years Later, J.P. Bowen and M.G. Hinchey, Jan., pp. 40-48.

- Verified Software: A Grand Challenge [Column], C. Jones et al., Apr., pp. 93-95.

G**GENI**

- GENI Design Principles [Column], GENI Planning Group, Sept., pp. 102-105.

Game design and development

- Building a Game Development Program, L. Argent et al., June, pp. 52-60.

- The Captured Imagination [Column], D.A. Grier, June, pp. 7-9.

- Educating the Next Generation of Game Developers [Guest Editor's Introduction], M. Zyda, June, pp. 30-34.

- Evolving the Artist-Technologist, I. Horswill and M. Novak, June, pp. 62-69.

- Game Design Education: Integrating Computation and Culture, J. Murray et al., June, pp. 43-51.

- Games and Technology: Developing Synergy [Column], N. Gershon et al., Dec., pp. 129-130.

- Play-Centric Games Education, T. Fullerton, June, pp. 36-42.

- Using a Cell Phone as a Game Controller [News], L.D. Paulson, Sept., pp. 22-24.

- Using IEEE Standards to Support America's Army Gaming Development [Column], S.K. Land and B. Wilson, Nov., pp. 105-107.

- Vendors Upgrade Their Physics Processing to Improve Gaming [News], D. Geer, Aug., pp. 22-24.

- Why Graphics Power Is Revolutionizing Physics [Column], M. Macedonia, Aug., pp. 91-92.

Gender differences

- Gender HCI: What About the Software? [Series], L. Beckwith et al., Nov., pp. 97-101.

Globalization

- Across the Great Divide [Column], D.A. Grier, July, pp. 8-10.

- Can Indian Software Firms Compete with the Global Giants? P. Konana, July, pp. 43-47.

- Globalization and the Future of Standardization [Column], R. Robson, July, pp. 82-84.

- Is Production Pulling Knowledge Work to China? A Study of the Notebook PC Industry, J. Dedrick and K.L. Kraemer, July, pp. 36-42.

Google Video

- Google Becomes an Entertainment Company [Column], M. Macedonia, Feb., pp. 101-103.

Graphics engines

- Vendors Upgrade Their Physics Processing to Improve Gaming [News], D. Geer, Aug., pp. 22-24.

- Why Graphics Power Is Revolutionizing Physics [Column], M. Macedonia, Aug., pp. 91-92.

Grid computing

- CASA and LEAD: Adaptive Cyberinfrastructure for Real-Time Multiscale Weather Forecasting, B. Plale et al., Nov., pp. 56-64.

- From Molecule to Man: Decision Support in Individualized E-Health, P.M.A. Sloot et al., Nov., pp. 40-46.

- Multiscale Modeling: Physiome Project Standards, Tools, and Databases, P.J. Hunter et al., Nov., pp. 48-54.

- Scaling System-Level Science: Scientific Exploration and IT Implications [Guest Editors' Introduction], I. Foster and C. Kesselman, Nov., pp. 31-39.

- Toward Open-World Software: Issues and Challenges, L. Baresi et al., Oct., pp. 36-43.

- US Tests Energy-Monitoring Grid Program [News], L.D. Paulson, May, p. 21.

H**HDTV**

- Moving Beyond HD [Column], M. Macedonia, Oct., pp. 115-117.

Hardware technology

- The Device Software Engineer's Best Friend [Column], M. Lindahl, May, pp. 95-97.

- Good Ideas, through the Looking Glass, N. Wirth, Jan., pp. 28-39.

Healthcare technology

- Coping with Defective Software in Medical Devices, S.R. Rakitin, Apr., pp. 40-45.

- Ensuring Patient Safety in Wireless Medical Device Networks, V. Gehlot and E.B. Sloane, Apr., pp. 54-60.

- A Formal Methods Approach to Medical Device Review, R. Jetley et al., Apr., pp. 61-67.

- High-Confidence Medical Device Software and Systems, I. Lee et al., Apr., pp. 33-38.

- IGSTK: An Open Source Software Toolkit for Image-Guided Surgery, K. Gary et al., Apr., pp. 46-53.

- Software Engineering for Future Healthcare and Clinical Systems [Guest Editor's Introduction], R.A. Schrenker, Apr., pp. 26-32.

Heterogeneous core computers

- What's in a Name [Column], J.M. Paul, Mar., pp. 87-89.

Human-computer interaction

- Gender HCI: What About the Software? [Series], L. Beckwith et al., Nov., pp. 97-101.

I**IEEE Computer Society**

- Celebrating the Past, Looking to the Future [EIC's Message], D.L. Carver, Jan., pp. 8-10.

- Computer Society Announces Summer and Fall Conferences [CS Connection], B. Ward, May, pp. 69-73.

- Computer Society Honors Oklahoma Teen at Intel Science Fair [CS Connection], B. Ward, July, pp. 67-70.

- Computer Society Honors Technical Achievements [CS Connection], B. Ward, Oct., pp. 94-96.

- Computer Society Magazines Plan 2007 Coverage [CS Connection], B. Ward, Nov., pp. 87-90.

- Computer Society Offers Full Slate of Programs in 2006 [CS Connection], B. Ward, Jan., pp. 87-91.

- Computer Society Seeks Nominations for Technology of the Decade Award [CS Connection], B. Ward, Apr., pp. 75-77.

- Computer Thanks Its Expert Reviewers [CS Connection], B. Ward, Dec., pp. 78-80.

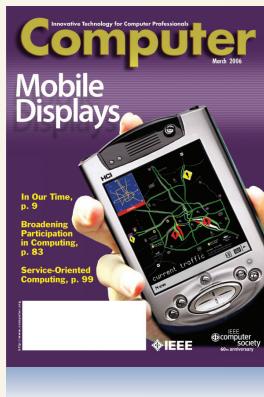

- An Expression of Gratitude, D.L. Carver, Dec., p. 7.

- IEEE Announces 2006 Fellows [CS Connection], B. Ward, Feb., pp. 79-83.

- IEEE Computer Society Election [Report to Members], Sept., pp. 73-78.

- The IEEE Computer Society's 60th Anniversary [Special Issue Introduction], D. Carver et al., Oct., pp. 22-25.

- IEEE President-Elect Candidates Respond to Questions on Governance Issues [CS Connection], Sept., pp. 81-86.

Kasturi Voted 2007 Computer Society President-Elect [Report to Members], B. Ward, Dec., pp. 81-82.
Making Our Society Even Better [President's Message], D.M. Cooper, Feb., pp. 5-7.

NC State Team Wins \$20,000 CSIDC Prize [Report to Members], B. Ward, Aug., pp. 13-16.
Organizers Announce Field for CSIDC 2006 [CS Connection], B. Ward, Mar., pp. 67-70.
Reaching Out to Shape Our Future, [President's Message], D.M. Cooper, Dec., pp. 8-10.
Taulbee Survey Indicates Steady Interest in Computing [CS Connection], B. Ward, Aug., pp. 77-79.
Weyuker and Barbacci Honored with Society Awards [CS Connection], B. Ward, June, pp. 73-74.

IGSTK

IGSTK: An Open Source Software Toolkit for Image-Guided Surgery, K. Gary et al., Apr., pp. 46-53.

IT systems perspectives

Assessing the Health of Open Source Communities [Column], May, pp. 89-91.
A Developmental View of System Security [Column], Jan. pp. 113-114.
Is Time Ripe for Fabric on a Chip? [Column], I. Elhanany and K. Busch, Sept., pp. 112-113.
Mathematical Server Sizing [Column], D. Brodine, July, pp. 91-93.
Security Models: Refocusing on the Human Factor [Column], D. Trcek, Nov., pp. 103-104.
Service-Oriented Computing [Column], M. Bichler and K.-J. Lin, Mar., pp. 99-101.

Indexing algorithms

Web Search Engines: Part 2 [Column], D. Hawking, Aug., pp. 88-90.

Informatics

The 'Grand Challenge' in Informatics: Engineering Software-Intensive Systems, M. Broy, Oct., pp. 72-80.

Integrated circuits

The Innovation Curve [Column], D.A. Grier, Feb., pp. 8-10.
Researchers Develop Transparent Chip [News], L.D. Paulson, July, pp. 20-22.

Interactive displays

Interacting with Large Displays [Column], P. Baudisch, Apr., pp. 96-97.

International Space Station

NASA's Exploration Agenda and Capability Engineering, D.E. Cooke et al., Jan., pp. 63-73.

Internet security

The Benefits of Being Different [Column], D.A. Grier, Nov., pp. 6-8.

False Domain-Name Database Information Plagues Internet [News], L.D. Paulson, Feb., p. 21.

GENI Design Principles [Column], GENI Planning Group, Sept., pp. 102-105.

New Worm Chats Up Its Victims [News], L.D. Paulson, Feb., p. 22.

Interoperability issues

Recipes for Digital Living [Column], M.W. Newman et al., Feb., pp. 104-106.

Interprocess communication

Can We Make Operating Systems Reliable and Secure?, A.S. Tanenbaum et al., May, pp. 44-51.

Invisible computing

Detecting Ads in Video Streams Using Acoustic and Visual Cues [Column], M. Covell et al., Dec., pp. 135-137.

Eyes on the World [Column], M. Naaman, Oct., pp. 108-111.

Games with a Purpose [Column], L. von Ahn, June, pp. 92-94.

Interacting with Large Displays [Column], P. Baudisch, Apr., pp. 96-97.

Recipes for Digital Living [Column], M.W. Newman et al., Feb., pp. 104-106.

Taking Sensor Networks from the Lab to the Jungle [Column], A.S. Tanenbaum et al., Aug., pp. 98-100.

Iris scans

Biometric Authentication [Column], A.C. Weaver, Feb., pp. 96-97.

L

Learning algorithms

Memory-Based In Situ Learning for Unmanned Vehicles, P. McDowell et al., Dec., pp. 62-66.

Learning object metadata

Standardized Uniqueness: Oxymoron or Vision of the Future? [Column], E. Duval and W. Hodgins, Mar., pp. 96-98.

Light field imaging

Light Fields and Computational Imaging, M. Levoy, Aug., pp. 46-55.

M

MD PnP

Software Engineering for Future Healthcare and Clinical Systems [Guest Editor's Introduction], R.A. Schrenker, Apr., pp. 26-32.

Manets

On the Credibility of Manet Simulations, T.R. Andel and A. Yasinac, July, pp. 48-54.

Mathematical models

The Applied Mathematics and Computer Science Schism [Column], J. Kowalik, Mar., pp. 104, 102-103.

Multiscale Modeling: Physiome Project Standards, Tools, and Databases, P.J. Hunter et al., Nov., pp. 48-54.

Medical software

Coping with Defective Software in Medical Devices, S.R. Rakitin, Apr., pp. 40-45.

Ensuring Patient Safety in Wireless Medical Device Networks, V. Gehlot and E.B. Sloane, Apr., pp. 54-60.

A Formal Methods Approach to Medical Device Review, R. Jetley et al., Apr., pp. 61-67.

High-Confidence Medical Device Software and Systems, I. Lee et al., Apr., pp. 33-38.

IGSTK: An Open Source Software Toolkit for Image-Guided Surgery, K. Gary et al., Apr., pp. 46-53.

Software Engineering for Future Healthcare and Clinical Systems [Guest Editor's Introduction], R.A. Schrenker, Apr., pp. 26-32.

Metamodeling

CALM and Cadena: Metamodeling for Component-Based Product-Line Development, A. Childs et al., Feb., pp. 42-50.

Microprocessors

AMD Gains on Intel in Marketplace [News], L.D. Paulson, Jan., p. 24.

Can We Make Operating Systems Reliable and Secure? A.S. Tanenbaum et al., May, pp. 44-51.

The Pentium Chronicles: Introduction, R.P. Colwell, Jan., pp. 49-54.

Microsoft .NET

Smart Clients versus Web Forms [Column], N. Veeramani, Aug., pp. 93-95.

Middleware systems

Toward Open-World Software: Issues and Challenges, L. Baresi et al., Oct., pp. 36-43.

Minix 3

Can We Make Operating Systems Reliable and Secure? A.S. Tanenbaum et al., May, pp. 44-51.

Mobile computing

DIAL Eases Mobile-Content Development [News], L.D. Paulson, Aug., pp. 25-27.

Digital Music Faces Incompatible Formats [News], D. Geer, Apr., pp. 10-12.
